

January 28, 2025

Good morning, Dawson Road maintenance would like to advise our Stake Holders that Smithers and area are expected to get snow this afternoon into Wednesday morning. Amounts around 10-15 cm Higher Elevations could receive more. Hazelton, Carnaby could expect 6-12 cm. All routes should see road snow accumulation on Tuesday, Steady snow continues through Tues night with temps warming overnight.

Important information:

- Use caution for any travel and drive to conditions
- Always drive with your headlights and taillights on
- Rapidly accumulating snow could make travel difficult
- Low visibility may be a concern
- Expect low cloud cover

Our Crews and equipment out and available to maintain the Highways and roads during this event. We appreciate your patience with our slow-moving vehicles and hope that all trips are planned accordingly. Check Drive BC before heading out.
